**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Maria Bautista on 6/25/07.

The application has been amended as follows:

**In the claims:**

In claim 6, line 5, after "expanding said neck" the phrase - - to orient said neck - - has been inserted.

In claim 6, line 6, after "crystallizing said neck" and before "after expansion" the phrase - - by subjecting said neck to heating - - has been inserted.

In claim 9, line 6, after "neck" the phrase - - to orient said neck - - has been inserted.

In claim 9, line 7, after "crystallizing said neck" and before "subsequent" the phrase - - by subjecting said neck to heating - - has been inserted.

In claim 10, line 5 after "neck" the phrase - - to orient said neck - - has been inserted.

In claim 10, line 6 after "crystallizing said neck" and before "subsequent" the phrase - - by subjecting said neck to heating - - has been inserted.

***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance:

With regard to claims 3, 6 and 9-10, the prior art fails to disclose applicant's recited container or preform and/or applicant's recited method for making the container or preform having an integral body and a finish comprising an integral neck which is circumferentially expanded to orient said neck and wherein the neck is crystallized by subjecting said neck to heating to form an expanded and crystallized neck and a finishing ring externally secured to said neck.

Valyl discloses a finishing ring in a container or preform. Tsukada discloses a crystallized neck, however, the neck is not to be oriented (column 4, lines 37-68) and thus Tsukada teaches away from a neck which is expanded, oriented and crystallized.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
